07 — PRE-RACE BRIEFING

Questions, answered.

Everything parents ask before race day — from booking and safety to surfaces and venues.

Are ride-on cars safe for young children?

+

What ages and weight limits are the cars designed for?

+

How much does it cost, and do you require a deposit?

+

Do you deliver and set up? What areas do you serve?

+

What types of venues and surfaces work best?

Booking: contact form vs real booking

Questions?

**Book Your
Racetrack Adventure**

Racers → package → date → agreement →
deposit → done. About 5 minutes.

 Your deposit is processed securely by
Stripe. Your date is held the moment the
deposit clears — one event per day, so it's
exclusively yours.

Step 1 — Who's racing?

What's the age range of the kids who'll be
driving? We'll bring the right cars.

Mostly ages 2-5 years old

Fits our standard cars — up to 55 lb
each

A mix of ages

Standard cars, plus 1 or 2 extra-large
cars for the older kids

Mostly ages 6-10 years old

Booking: contact form vs real booking

Book Your Racetrack Adventure

Racers → package → date → agreement → deposit → done. About 5 minutes.

Your deposit is processed securely by Stripe. Your date is held the moment the deposit clears — one event per day, so it's exclusively yours.

Step 1 — Who's racing?

What's the age range of the kids who'll be driving? We'll bring the right cars.

Mostly ages 2-5 years old

Fits our standard cars — up to 55 lb each

A mix of ages

Standard cars, plus 1 or 2 extra-large cars for the older kids

Mostly ages 6-10 years old

These racers need our extra-large cars — we have 2 of those cars

☐ Every racer is within the weight limit for their car (up to 55 lb in a standard car, up to 130 lb in an extra-large car). It keeps the cars safe and the day fun.

Where will the cars drive?

Hard, flat surface — pavement, concrete, sport court, gym floor or turf

Grass, dirt or gravel

LIVE

Booking, paid and locked in one pass.

Every racer is within the weight limit for their car (up to 55 lb in a standard car, up to 130 lb in an extra-large car). It keeps the cars safe and the day fun.

Where will the cars drive?

Hard, flat surface — pavement, concrete, sport court, gym floor or turf

Grass, dirt or gravel

Is there room for the track? A 3-car garage driveway works — a cul-de-sac or about half a basketball court (roughly 47 × 50 ft) is even better.

Yes, at least a 3-car garage driveway's worth of space

The customer answers
ages, weight, surface, space

exclusively yours.

Step 3 — Pick your date & time

Weekends book instantly with a \$200 deposit. **Weekdays (Mon–Fri) are by request** — pick your date and we'll get right back to you. Greyed-out dates are already reserved.

Every figure updates
collected, outstanding, forecast

Built so it cannot go wrong: each balance can be charged exactly once, a cancelled booking is never charged, and the amount comes from the booking record rather than the browser.

LIVE

Paid booking in, crew scheduled out.

Who gets invited to a booking, in order, the first person is asked first. If they are marked unavailable for that date, the next one takes it automatically. Changes apply to new bookings — calendar invites already sent stay as they are.

Still learning adds 30 minutes to every job that person is on — it goes into set-up, so there is time to train, and the break before the party stays the same length. New people start as still learning. Marking someone trained updates their upcoming job sheets straight away; nobody is re-invited.

1. Crew One
Invited first
Trained
Unavailable: Oct 2 — Crew One blocked it on Sep 21

Accepted

I can't make it

Sun, Oct 4, 2026

Ultimate · 8 cars

Newport Beach

Meet at the garage 9:00 am · at the venue by 10:00 am

Crew One can't make Sun, Sep 27

Reason: Family emergency

Grand Prix · 6 cars · Irvine

Next in your order and free that day: Crew Two.

Reassign to Crew Two

I'll handle it

Reassign updates the calendar invite: the caller is removed and notified, and the replacement gets a real invite.

One tap reassigns it

the caller comes off the calendar invite and is told; the replacement gets a real invite

One tap: I cannot make it
from the job, in the crew app

The owner gets the coverage email
who is next in the order and free that day

Before any of this, prep emails go out **five days** and **one day** before the event, and the crew app carries the jobs, the days off, the hours and the owner's guide.

LIVE

After the party, the follow-up sends itself.

The event ends
nobody has to remember
anything

The thank-you sends itself
the same evening

The review ask rides with it
Google, one tap, plus 10% off
their next party for a review
within 7 days; one ask per
customer, never repeated

Any balance left shows here
and in the email, with a card link

Paid by card on file: the email says nothing about money. Paid by hand: it carries the balance and a one-tap link. **Each email is claimed before it sends, so a customer never gets two.**

LIVE

Hiring, from a name and an email.

The licence goes to the insurer with renewal reminders at 60, 30, 14, 7 and 1 days. The owner's two tasks repeat every three days until both are done. **Deactivating someone removes them from invites, kills their app link and starts the insurer removal.**

LIVE

Hours and the business, **at a glance.**

and back in the cargo van, ready to drive to 77 Mission Bell

Sat, Sep 5 · 10:30–15:00 · meal 12:30–13:00
(30 min) · **4:00**
Grand Prix · Irvine

Sat, Sep 12 · 09:00–14:15 · no meal · **5:15**
Ultimate · Newport Beach

Sat, Sep 19 · 12:00–18:15 · meal 14:30–15:00
(30 min) · **6:15**
Starter · Tustin

This pay period: 15:30 (15.50 h) · regular 15.50 · overtime 0.00

The crew log the day

start, end, meal, on their phone

**The pay period adds up
regular, overtime and double
time, by period**

**The owner reads the business
collected, outstanding, forecast**

**Export and lock
totals go into payroll; the
period closes**

Money counts confirmed bookings only, by event date, with test bookings excluded. **That one definition is printed on the page**, so every figure on it means the same thing.

What used to happen by hand.

BEFORE

Crew names typed into calendar text, no way to see who committed

Texting a new hire about availability and shift times

Payroll setup data missing, entered by hand

Crew priority changes needed an engineer

Every rental modeled the same, meet time guessed

AFTER

➤ Each crew member gets a real invite and accepts or declines

➤ Private crew app with jobs, RSVP and days off

➤ Required payroll fields surfaced in the reminder email and dashboard

➤ The owner sets invite order in the dashboard

➤ Meet time computed from package, drive time and training

LIVE

Meet time, worked out with live Google traffic.

Meet at the garage
on every job card, job sheet
and invite

Example: 2:00 PM start, 60 set-up, 35 drive, 30 load = **meet at 11:55 AM**. Rounded up to five minutes by spending cushion, never by adding time. **If the traffic or the booking changes, every upcoming job sheet updates itself within the hour.**

LIVE

Custom parties, **quoted and paid without a call.**

Weddings, schools and festivals don't fit a package. **The owner builds one in a minute**, and from there it runs on the same rails as a website booking: signature, deposit, crew, meet time, balance, thank-you.

LIVE

Marketing, **built into the job.**

A shot list on every job sheet

step 1: find out who the birthday kid is; then the shots for the recap reel

Footage comes back

the crew film the moments that sell the next party

AI video for social

scene-by-scene generated ads, same car, same brand

Ready to post

reels, stories and ads

The crew capture real parties on the day, and the AI side produces the stunt-level ads no rental company could film. **Both are part of what HussiAI runs for Little Racers.**
